to the proper way to display the American flag on July 4 or other pariotic occasions can coen call in their children from the public echool and get immediate and authoritative counsel according to J. L. Dunn, commander of the Rudolph Lambert post, Amerlean Legion.

'As a result of the campaign waged by the Texas department, American Legion, led by State Commander M. W. Sherwood of Temple, standard flag rules are to be taught in all public schools in Texas. The rules are to be made a part of the course in civics sccording to a recent decision of the state text book commission, Dunn, of

the local legion post said. "Not many Americans, loyal as they are at heart," declared Dunn, "know what to do when Old Glory comes by in a Fourth of July parade. Nobody intends to show any disrespect to the national banner, but most of us go merrily on as the flag is passing in parade-just as though it were of no more significance to us than an elabor-

ately decorated float. "When the flag is passing in parade everybody, should come to attention until the colors have been carried by. A man should lift his hat with his right hand and place it over his beart; the woman should place her right hand

over heart. That is just one of the many rules to be taught in the public schools of Texas thanks to the successful campaign of the Texas department. American Legion—and before many years ticularly the young people, will be thoroughly familiar with the standard rules to be observed in displaying and paying proper respect to Old Glory."

### ARKANSAS GETS THE GLORY FOR CHILD LABOR BILL

Arkansas lawmakers of the lower house of the legislature ratified the Child Labor amendment by an overwheiming majornty and then sent it to the upperhouse. Thus the twentieth amendment is on its way to ratification with a southern state leading the band.

Many of the foremost lawyers of American declare that should the amendment be ratified by three-fourths of the states, the agents of the federal government will be authorized to step in and prohibit the labor of boys or girls under the age of eighteen. If so, what is going to happen away down on the farm: This is the plank adopted by the Madison Square Garden

"We pledge the party to co-operate with the state governments for the welfare, education and protection of child life and all necessary safeguards against exhaustive, debilitating employment conditions for women. Without the democratic members of congress amendment would not have been passed for ratification.

Many of the democratic women leaders of the nation are fled from his crime, fled from him said to have experienced keen disappointment when they read the platform. The League of Nations plank and the defeat of the child labor proposal in that the plank did not recommend the ratification of the amendment by the states, coupled with the failure to get the kind of endorsement they wanted of federal bureau of education, are the issues which call for the most criticism on the part of the feminine voters. Four years ago in the city of San Francisco the women were given all that they demanded. Senator Carter Glass of Virginia was the chairman of the committee on platform. When the women appeared before him, the Virginian said:

"Ladles, we have given you all you have asked for; if you. think of anything else you want, come back and we will give

Well, this time the women demanded the League of Nations: they demanded ratification of the child labor amendment; they demanded a federal bureau of education. They did not get them but if the Arkansas lawmakers are in favor of the abolition of child labor it is safe to predict that the legislatures of late for himself, but in time to point forty states will ratify the twenticth amendment.

### **GUARD SOLD NAPOLEON** FLAGS TO AMERICANS

PARIS, July 4.—Discovery that the battle fluxs of Napoleon were being carried proudly on their way to America has led to the arrest of a guard employed by the Ministere des Beaux Arts. The guard was on duty at Napoleon's tomb in the museum of the Invalides. He capitalized the American practice of collecting souvenirs, no matter how accred. Naturally they desired n souvenir. He carried a pair of scissors and would clip off a little piece of a shell-torn flag and harter it for a good price in dollars, Suspicion arose when officials no-ticed that some of the flags looked smaller and did not have gracefully from their staffs. An inspector impersonated an American accent, but
